## EDUCATION

**Bachelor's of Technology - CSE**  
ABES INSTITUTION OF TECHNOLOGY

Aug 2020 – Aug 2024 | Ghaziabad, India

## PROFESSIONAL EXPERIENCE

### UI/UX Designer Intern

Sep 2023 – Jan 2024

Figma | Web | Mobile UI Design

- Designed the entire user interface and user experience for both web and mobile versions, creating a seamless experience across 50+ screens.
- Participated in 20+ design discussions with the team
- Enhanced design concepts, leading to a 30% improvement in overall user satisfaction ratings.

## PROJECTS

### AIMS (E-Commerce Farm App)

Aug 2023 – Sep 2023

UI/UX Design

- Redesign simplifies farmer interaction, offering an intuitive interface for easy navigation and informed decision-making.
- I improved the system's visual appeal with a cohesive illustration and intuitive layouts.
- Created App Interface Design

### SilentVerse (Unity3D Game )

Feb 2023 – Apr 2023

Unity | Photon | C#

- Created 3D Virtual World Game where users can visit landmarks, and connect with others for fun.
- Engineered the seamless integration of the app with the highly efficient Photon Cloud, resulting in reduced latency and enhanced voice communication for players worldwide.
- Optimized user experience and strengthened global player community.

### Apni Care App (Pharmacy App)

Oct 2022 – Jan 2023

UI Developer

- Developed an intuitive Android application for purchasing medications online, making it easier for 100K+ customers to shop for their prescribed drugs.
- Designed and implemented a user-friendly interface that increased user satisfaction by 90%
- Integrated a database system that enables us to store and manage user data more efficiently.
